Clarification was made on when site permits are needed. Any addition or removal of a structure requires a site permit when it is larger than 100 square feet, including cabins on skids. Building permits are also required any time someone might be residing in the structure. Solar panels are excluded as they are exempt from property tax.

On July 2nd a UTV accident occurred on Clinton Ridge Road, breaking off a pole. A bill will be expected from Cashton Fire Department. Speed exceeded the 35 mph limit.

Chairman LaDue requested input on culvert replacement as the county needs cost estimates for budgetary purposes. Two possible locations are on upper Knapp Valley.

A claim was filed against the town's insurance; Supervisor Leis indicated his vehicle sustained glass damage when inspecting roads following a storm. The other board members emphasized the need to broach this at a meeting rather than contacting the insurance company directly.

Supervisor Leis inquired about additional patching; Chairman LaDue noted budgetary restrictions, but has received many favorable comments regarding the amount accomplished this year already. Mowing is a priority as calls have come in from county sheriff and highway as well as fire department. Supervisor Chapiewsky noted a culvert on Clinton Ridge can not be extended due to its concrete construction.

Partisan primary will be August 11; Scot Sanders and Mr. Schrock will be working on the walkway from the parking lot which is to be made from silo staves. Cashton Fire Department picnic is July 15th at the park.

At 8:25 pm, Supervisor Leis made a motion, 2nd by Supervisor Chapiewsky to adjourn; all ayes, motion carried.
